Dear Rutwik S Nainoor,

You are invited to present the following accepted paper:  
**• 2D-CNN FOR HYPERSPECTRAL UNMIXING: A FRAMEWORK FOR SPATIO-SPECTRAL SYNERGY**

We are pleased to inform you that your submission has been accepted for presentation at the 2025 IEEE International Geoscience and Remote Sensing Symposium (IEEE IGARSS 2025) in Brisbane, Australia, during 3 - 8 August 2025. Your participation in this meeting and conference is of great importance to develop, empower, and advance engineers and scientists from diverse backgrounds (technical, regional, gender, etc.), and inspire members around the world to follow their technical interests to a career in geoscience and remote sensing, as well as inspire a future generation of engineers and scientists through various groups working with students at all levels of academics.

All authors should be aware that accepted submissions must be presented at the conference in order to be included in the final proceedings of the conference. Furthermore, as required by IEEE, IGARSS 2025 papers will not be submitted to IEEE Xplore if they have not been presented at the conference. A valid presentation at the conference consists of: (1) submitting IEEE copyright forms, (2) registering for the conference, and (3) presentation of the paper in person by one of the authors.

At least one author for each submission must register for the conference and pay the required registration fee as described on the conference website, <https://2025.ieeeigarss.org/>. Any author who has not registered will not be able to participate in the conference.

All authors need to check the current requirements for entering the country. Visa and current travel policies, as well as links to your local embassy or consulate, can be found at the Travel Information web page, [https://2025.ieeeigarss.org/visa\\_information.php](https://2025.ieeeigarss.org/visa_information.php). Note that it can take a while for visas to be issued, so we recommend that you start the application process immediately. Questions should be directed to [registration@2025.ieeeigarss.org](mailto:registration@2025.ieeeigarss.org).

This letter does not constitute an offer to contribute to the financial costs of registration, travel to or from the conference, or subsistence while in the country. Authors are responsible for the entire travel cost, to and from their home countries, including hotel expenses. Attendees are strongly encouraged to reserve their flights as early as possible in order to optimize their flight schedule.

On behalf of the steering committee, we thank you for submitting this work to the conference. We look forward to welcoming you to IGARSS 2025!
